5th October 2011

Zurich, Switzerland – SIX Telekurs tomorrow will launch its event series on managing risk with greater transparency with guest speakers from its prominent partners Dun & Bradstreet and Morningstar.

Amid the turmoil in the markets, financial industry regulators and government officials are demanding more transparency from financial market participants. SIX Telekurs together with its partners has developed leading services in data transparency.

These innovations will be presented in a series of events held in Switzerland this autumn. Topics will cover getting a clear view of a portfolio's composition, determining the total counterparty exposure, improving risk management and ensuring current and future regulatory compliance.

"We are excited to be part of the solution in achieving greater transparency in managing your risk. SIX Telekurs works closely with regulators, tax authorities, auditors and industry experts to always stay on top of developments in the securities industry," said Ivo Bieri, Head of Strategic Business Development at SIX Telekurs. "We also have a history of successful partnerships with leading companies to support the financial services industry with the highest level of expertise combined with an acute appreciation of its business needs."

The first event on 6 October will begin at 10 a.m. at the ConventionPoint, SIX Swiss Exchange, Selnaustrasse 30 in Zurich. The following events will be held in Geneva on 16 November and Lugano on 25 November. For more information or to register, please log on to: www.six-telekurs-voidtransparency.com
