Media Release No. 01/07

Telekurs Financial signs contract with Dubai-based company Telenet Systems to service clients in the Arabic-speaking countries.

To enhance the service provided for the steadily growing number of customers in Arabic-speaking markets in the MENA (Middle East & North Africa) region, Telekurs Financial has signed a cooperation agreement with Telenet Systems of Dubai. Up to now, clients in the MENA region were covered by a number of different Telekurs subsidiaries. The partnership with Telenet Systems forges a bridge between Europe and Asia, the latter continent being serviced by the Telekurs companies in Singapore and Japan. It reflects Telekurs Financial's strategy of working together with partner companies in markets where it does not have its own offices.

Telenet Systems is an ideal partner as it has been operating in the financial information business in this region for over 20 years and has both excellent knowledge of the market and an extensive network of contacts.

Under the cooperation agreement with Telekurs Financial, Telenet Systems will focus on the sale of display products in the MENA region and on related training and advisory tasks.

Telekurs Financial

Telekurs Financial is one of the leading providers in the area of acquisition, refinement and distribution of international financial information. A global network of local financial market specialists procures real-time stock-exchange information directly from source in all major financial centres. With 20 offices in 16 countries, Telekurs Financial maintains a database of structured, encoded securities information that is unparalleled throughout the world in terms of both depth of information and data coverage.
