Press Release No 05/06

Telekurs Financial is pleased to announce an alliance with Worldlink as the first UK Technical agent entitled to distribute Telekurs **iD** mobile, a leading portable financial information solution. Currently available on the BlackBerry PDA, this unique combination of user-friendly mobile software and comprehensive financial pricing and reference data from Telekurs Financial takes portable financial information to the next level.

As well as access to the comprehensive and fully cross-referenced international data universe, Telekurs **iD** mobile also includes business news and market summaries from around the world, constantly updated, wherever BlackBerry mobile coverage is available. Features such as high capacity instrument lists which can be used for limit supervision as well as real-time and historical charts make this one of the most flexible and customisable mobile data solutions available.

Telekurs **iD** mobile contains many of the functions found in Telekurs **iD** – the leading next generation display product from Telekurs Financial - including 24 hour access to prices and alerts from around the world.

Beat Koch, CEO of Telekurs (U.K.) Ltd stated: "Telekurs Financial is delighted to have found such a pioneering partner for Telekurs **iD** mobile - one of our most innovative products. Worldlink has been leading the way in wireless financial technology for several years, and I believe Telekurs **iD** mobile represents the next step in this direction."

Neil Riches, Managing Director of Worldlink commented: "We are very excited to be involved in the marketing and distribution of this leading solution from Telekurs Financial and believe Telekurs **iD** mobile has huge potential for the UK financial market."

Notes for editors:

Telekurs Financial

Telekurs Financial is a company of the Telekurs Group which operates in the fields of financial information, payment transactions and IT services. As a leader in its field, Telekurs Financial specialises in the procurement, processing and distribution of international financial information for investment advisory services, portfolio management, financial analysis and securities administration.

A global network of local financial market specialists procures real-time stock exchange information straight from the leading financial centres. Containing over 2.7 million financial instruments, the database of structured, encoded securities information maintained by Telekurs Financial and its ten representative offices abroad is unparalleled throughout the world in terms of both depth and data coverage.

As the official numbering agency for Switzerland and the Principality of Liechtenstein, Telekurs Financial is responsible for allocating Swiss security (Valor) numbers. It is a founding member of the Association of National Numbering Agencies (ANNA) and leads the way in introducing standards aimed at simplifying trading and securities administration.

Worldlink:

Worldlink was founded on a singular vision: to address recognised market needs for real-time data exchange. In other words, to enable organisations to access business critical information, normally only available at the desktop, whilst on the move.

Worldlink is a pioneer in wireless technology. Founded in 1998, Worldlink developed and patented the technology to enable the real-time, wireless updating of financial market data for traders. Worldlink's first product, MobileMarkets was the world's first such GPRS application.
