**August 17, 2006**

**Press Release No 06/06**

Telekurs Financial announces the Verification Service as a new feature in the Corporate Actions Reports Service (CARS). This report is made available to CARS clients on request – adding considerable value to their current service.

The verification report shows the status of each instrument that has been requested in the client's current "input file" and will be produced at the same time as the client's current CARS reports. The file can be delivered either to the client's output directory, or a sub directory in the output directory.

Beat Koch, CEO of Telekurs (U.K) Ltd. says: "This will provide clients with additional peace of mind and more time as they will not have to worry about missing corporate actions or spend as much time cleansing their instrument reference data. Our latest enhancement will help them to do this more easily."

**Editors Notes:**

**Telekurs Financial**

Telekurs Financial is a company of the Telekurs Group, which operates in the fields of financial information, payment transactions and IT services. As a leader in its field, Telekurs Financial specialises in the procurement, processing and distribution of international financial information for investment advisory services, portfolio management, financial analysis and securities administration. A global network of local financial market specialists procures real-time stock exchange information at source from the leading financial centres. Containing over 2.7 million financial instruments, the database of structured, encoded securities information maintained by Telekurs Financial and its global offices is unparalleled throughout the world in terms of both depth and data coverage.

As the official numbering agency for Switzerland and the Principality of Liechtenstein, Telekurs Financial is responsible for allocating Swiss security (Valor) numbers. It is a founding member of the Association of National Numbering Agencies (ANNA) and leads the way in introducing standards aimed at simplifying trading and securities administration.
