

TELEKURS iD MOBILE – FINANCIAL INFORMATION FOR PEOPLE ON THE MOVE

As a BlackBerry user with Telekurs iD mobile, you can keep up with events on the international financial markets wherever you are. The financial information system for mobile phones and PDAs (currently BlackBerry) offers easy access to current prices and descriptive data. The data are updated automatically. Business news and market summaries round out the mobile information offering. Functions such as instrument search, limit supervision or charts are part of the service. The simple, flexible and mobile management of personal user lists while you're on the move is a special highlight.

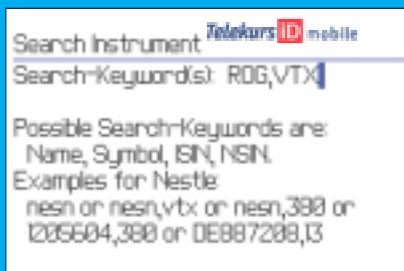

Name	N	T	Actual	L/C%

How Telekurs iD mobile works

Telekurs iD mobile communicates via the Internet with the Telekurs iD display server to which your desktop version of Telekurs iD is connected. When you're on the move you can access the same data and user lists as you would at your desk.

Telekurs iD mobile: data offering and functions

Price quotes	Current prices in line with your stock exchange subscription	Bid, ask, last, mid and valuation prices, different highs and lows, contract sizes, currencies, percentage changes, yields, income, maturity, volumes, etc.
Descriptive data	Fundamental data	Names, ISINs
News	Dow Jones News, 13 agencies in line with your subscription	The 20 latest news items, including equity analysis, market reports and company profiles. Older news can be called up via the link to the instrument
Detail quote	All major prices for an instrument at a glance	Direct links to charts and news
Limit supervision	Informs you by e-mail if a limit is exceeded or undershot	The setting can be adjusted via your Telekurs iD installation at your workplace
Chart	Historical chart display	Intraday, quarterly, annual and five-year charts
Instrument search	Fast search	Search by name, ISIN, NSIN, trading or market symbol
Personal user lists	With up to 150 securities for each list	Create, edit and delete items directly on Telekurs iD mobile. Automatic matching against the Telekurs iD system at your workplace

Advantages of Telekurs iD mobile

Telekurs iD mobile helps with your own mobility:

- Wherever you are, you can keep abreast of the latest events on the international financial markets
- Receive up-to-date price information and news
- Current prices, descriptive data and news are linked, as in all Telekurs Financial's display products
- Active limit warnings allow you to react quickly even while on the move
- Market summaries provide you with a rapid overview
- You can call up and manage your personal quote lists even when on the move
- Telekurs iD mobile is easy to install "over the air"

Requirements for using Telekurs iD mobile

Telekurs iD mobile can be run on a variety of business telephones and PDAs (currently BlackBerry). The range is being continuously expanded. You will find a current overview on the product website www.TelekursiDmobile.com.

To use Telekurs iD mobile you will need an HTTP browser on your mobile device, a Telekurs iD-contract as well as the necessary stock exchange subscriptions.
